MAXIMUM CANNON

HULL HITS - When the ship is down to 8 hull hits, it rolls every turn for further hull hits.

RIGGING HITS

SHIP COMBAT

CANNON: ROLL TO HIT

Roll 3 dice to hit. A cannon hits on a roll of 10 or MORE. Adjust your roll as follows:

- +1 if the target is within six inches.
- 0 if it's at least six inches, but less than two feet.
- -1 if the target is two full feet away.
- -1 for every full six inches past two feet.
- -6 if you are firing grapeshot.
- +2 if the firing cannon is on land.
- +1 if the target is on land.
- +1 if the target is Hull, unless
- (a) you're firing at a boat: no bonus and a -3 penalty because it's a boat
 - (b) you're crossing his T: no bonus, but a -2 penalty.
 - +1 if the gun is laid by redcoats, bluecoats or a Pirate Captain.
 - +1 if the gun is laid by an Expert Gunner.
 - +1 for a target of Class 6 or more, or a large building (GM rules).
 - -1 for a target of Class 1.
 - -3 for a target of Class 0 (i.e., a boat); no bonus for a Hull shot.

A roll of triple 1's means your cannon has burst. Remove it, and its crew. Yes, this can kill your captain.

A roll of triple 6's means you have disabled the wheel or rudder of your target, no matter what you were firing at; no further roll to hit is needed.

If you hit, roll 3 dice on the appropriate table.

HULL

- 3-9 Target takes one hit of Hull Damage.
- 10-13 Target takes two hits of Hull Damage.
- 14-15 Target takes three hits of Hull Damage.
- 16 A gun is hit! Remove one gun. Roll again if target has no guns. 17-18 - As above, and roll one die. Even: lose one crew. Odd: lose two crew.

RIGGING

- 3-8 Shot passes harmlessly through the rigging.
- 9-12 Target takes one hit of Rigging Damage.
- 13-16 Target takes two hits of Rigging Damage.
- 17-18 A mast comes down! Single-masted ships lose ALL remaining rigging hits. Ships with two masts lose half their ORIGINAL rigging hits. Round off in the target's favor.

(Bowsprits aren't masts.)

DECK (firing normal shot)

- 3-6 Target takes a point of Hull Damage.
- 7-9 Target loses two crew.
- 10-11 Target loses one crew.
- 12 Lines are cut! One hit of Rigging Damage.
- 13-14 A gun is hit! Remove one gun. Roll again if target has no guns.
- 15-16 As above, and roll one die. Even: lose one crew. Odd: lose two crew.
- 17-18 A mast comes down! Results are as for RIGGING, above.

DECK (firing grapeshot)

Remember the extra -6 to hit if you fire grape!

Modify your roll by +1 for every 5 crew aboard your target at the moment you make this roll.

- 3-10 Target loses one crew. But if the target is down to one or two crew, this result becomes a miss!
- 11-15 Target loses two crew. If he has only two left, he
- 16 or more Target loses three crew! If he has three or fewer, he loses one.

INDIVIDUAL COMBAT

Hand weapons hit on a roll of 9 or more.

Pistols and muskets hit on an 11 or more:

- -1 for every full inch to the target, for a pistol.
- -1 for every full 3" to the target, for a musket.
- -2 if the target is partially behind cover.
- +1 if the attacker is a Pirate Captain, Expert Marksman, redcoat or bluecoat.
